

Administrative Professional Open Pool Advertisement
Department of Physics
Colorado State University

Title: Research Associate/Instructor

Employment Type: Administrative Professional

College: Natural Sciences

Department: Physics

Salary: Salary is commensurate with level of training and research or teaching experience.

Requirements: The Department of Physics seeks applications for 2007 from individuals who are interested in obtaining temporary positions within the department. Department research programs include the areas of theoretical and experimental Condensed Matter Physics, Atomic and Molecular Optics, and High Energy and Astrophysics. The department also provides instruction of both undergraduate and graduate students. Applicants must hold a bachelor's degree in an appropriate discipline. Salary is commensurate with level of training and experience. A detailed description of the department and individual faculty are available on the department web page (<http://physics.colostate.edu>)

Application Deadline: 01-31-2008

Individuals wishing to be considered beyond this date must reapply.

To Apply: Interested individuals should send a current resume, a statement of research experience and interest, and names and addresses of three references directly to a specific faculty member in the department. Alternatively, the material can be submitted electronically either to a specific faculty member or to the department office at (demlow@lamar.colostate.edu).
