## **CSU PHYSICS PUBLIC TALK**

### **The Route from Fundamental Science to Innovation**

**Speaker: Dr. Albert Fert**

**Colorado State University**

**7:00 PM Monday, November 13, 2017**

**Location: LSC Ballroom**

### **Abstract**

What are the sources of technological advances that change our everyday life? This lecture will highlight examples of how important recent advances in information and communication technology – such as hard disks for information storage and new types of memory for low-power computers – come from breakthroughs in pure fundamental science.
